DESCRIPTION:

Menabrea 1846 is a premium prestige lager beer. Additive free, it is the only Italian lager still brewed by bottom fermentation, a completely natural "slow fermentation" process using spring water from the Alps and brewed with malt, maize, hops and yeast. Unlike mass produced beer, no water is later added to standardize the alcohol content. The results are a testament to eight generations of brewing expertise by the Menabrea family – a full bodied beer with a light colour and optimum flavour.

TASTING NOTES:

"Pale yellow appearance. Moderately light bodied. Mild bitterness. Subtly hopped. Reminiscent of grains, dried herbs, citrus zest. Crisp, grainy palate with lively carbonation. Refreshing, this needs a good chill. Dry style with good flavour."
