## **DESCRIPTION:**

Recalling one's own tradition does not mean foregoing innovation. Today Mastroberardino is one of the most advanced syntheses of technical competence in the field. Nevertheless, the application of this competence doesn't aim to change the fundamental nature and characteristics of the ancient wines, but to preserve their existence and value, and to harmonize them with the evolution of schemes and ideas which represent a distinctive mark of wine tasting.

## **TASTING NOTES:**

*"Mastroberardino's 2006 Taurasi Naturalis Historia presents the darker, more brooding side of Aglianico. Huge tannins frame a core of black fruit, tar, smoke, licorice and incense... Deep and sensual, the 2006 boasts impeccable balance from start to finish." Antonio Galloni ~ February 2013*
