DESCRIPTION:

Snow Queen Vodka is a vodka from Kazakhstan produced from organic wheat and artisan spring water from the foothills of the Himalayas. Kazakh birch charcoal is used in its five-time distillation process. The story of the Snow Queen Vodka brand is every bit as enchanting and enduring. Originating in Kazakhstan, the vodka is created from a five-times distilled blend of certified organic wheat and pure spring water. The state-of-the-art production methods and superior ingredients combine to guarantee consumers enjoy the most premium and refined drinking experience.

TASTING NOTES:

Snow Queen Vodka offers a unique style of vodka that is velvety smooth, with a gentle sweetness and complete purity of spirit character. The nose has aromas of vanilla, black pepper and aniseed notes. The palate is clean, with more spicy, peppery, anise notes and vanilla flavours. It has a silky, creamy texture and has an extraordinary smooth finish.
